EXECUTIVE SUMMARY 1-1
Introduction 1-1
System Needs 1-2
Bicycle 1-3
Pedestrians 1-4
Transit 1-7
Freight 1-8
Parking 1-9
Motor Vehicle 1-11
Policies 1-16
ASSUMPTIONS & METHODOLOGY 2-1
Introduction 2-1
Project Approach 2-1
Public Involvement Process 2-2
Goals and Policies 2-3
Measures of Effectiveness 2-5
EXISTING CONDITIONS 3-1
Introduction 3-1
Study Area 3-1
Bicycles 3-1
Pedestrians 3-3
Transit 3-10
Motor Vehicles 3-15
Key Transportation Issues 3-33
Freight 3-33
Parking 3-36
Summary of Key Transportation Needs 3-39
BICYCLE 4-1
Key Recommendations 4-1
Introduction 4-1
Existing Facilities and Needs 4-3
Future Bicycle Needs 4-4
Action Plan for Bicycling 4-7
PEDESTRIAN 5-1
Key Recommendations 5-1
Introduction 5-1
Existing Facilities and Needs 5-4
Pedestrian Improvements 5-6
Action Plan for Pedestrians 5-14
TRANSIT 6-1
Key Recommendations 6-1
Introduction 6-1
Existing Facilities and Needs 6-3
Transit Improvements 6-4
Action Plan for Transit 6-10

MODELING ASSUMPTIONS 7-1
Introduction 7-1
Travel Demand and Land Use 7-1
FREIGHT 8-1
Introduction 8-1
Existing Facilities and Needs 8-1
Action Plan for Freight 8-3
PARKING 9-1
Key Recommendations 9-1
Introduction 9-1
Existing Facilities and Needs 9-2
Parking Improvements 9-3
Action Plan for Parking 9-12
MOTOR VEHICLE 10-1
Key Recommendations 10-1
Introduction 10-1
Existing and Future Needs 10-5
Motor Vehicle Improvements 10-9
Action Plan for Motor Vehicles 10-35
